

## PAINTING SCHEDULE

Produced by: Taubmans Paints (PPG PTY LTD)

Project: Huntlee Estate

### ***NON PREMIUM FAÇADE SPECIFICATION***

#### SURFACE PREPARATION:

All Brickwork must be high pressure water washed prior to the application of the Armawall Primer & Armawall Sand High Profile system. The surface should be clean, dry and free from all dirt, dust, grease, oil, excessive mortar or mortar slurry and any other surface contamination. Any holes or defects may require patching with Armawall Coarse Patch mixed with 20% grey cement powder prior to coating system application. Surface preparation is the responsibility of the Applicator, Builder, Renovator or Main Contractor. Armawall Surface Preparation Products are designed to perform at their optimum when used as part of an Armawall Texture Coating System.

## **EXTERIOR PAINTING SCHEDULE**

---

### **Additional Notes:**

- Specification is built on the basis that no release agent was used on the precast concrete. A water bead test is highly recommended prior to coating.
- All blow holes in the tilt up concrete panels are to be filled with Armawall Smooth Patch mixed with 10% grey cement powder prior to its application.
- Moisture content in the substrate must be below 15% wood moisture equivalent prior to and during the application of the specified Armawall texture system.
- Armawall Sand may not fill all blow holes or imperfections on the substrate. All surface preparation is highly recommended.
- Surface preparation is the responsibility of the Applicator, Builder, Renovator or Main Contractor. Armawall Surface Preparation Products are designed to perform at their optimum when used as part of an Armawall Texture Coating System.
- For optimum performance of the Armawall Texture Coating System it is strongly recommended that the application is carried out by an applicator skilled in the Armawall systems and products.
- It is a requirement for the home owner, builder, architect or main contractor to fully investigate the suitability of the Armawall Texture Range for its desired use and application.
- Please refer to the specific Armawall Product Data Sheets for further information.
